

12 ways to get Multiple Repetitions in Speech Production

According to the most recent research, individual speech intervention sessions 3-4 times a week which aim to elicit between 50-100 repetitions of the target sound or word are the most effective.

In your intervention sessions, try using the following activities to elicit multiple repetitions of a target sound. Try to do 5 repetitions per turn to get a high number of repetitions. Have fun!

Say and poppet!

Say and Pop up the Pirate!

Say and swat!

Say and smash!

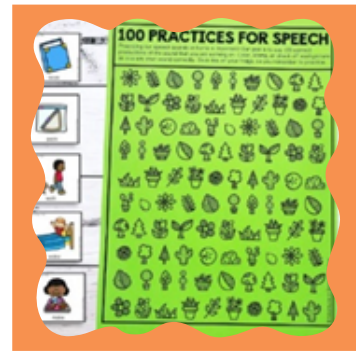

Say and snap!

Say and slide!

Say and tally!

Say and stamp!

Say and stack!

Say and smash!

Say and hang the monkey!

Say and Buckaroo!
